CONTRACTING & TRADING

Al Aitimad is a multi-disciplinary procurement and industrial solutions company based in Yanbu, Kingdom of Saudi Arabia. We provide integrated services across international procurement, industrial construction, specialized coating and waterproofing, non-metalic piping, manpower supply, and equipment rental.

With a focus on quality, safety, and operational excellence, we support clients across the oil and gas, petrochemical, power, manufacturing, and infrastructure sectors.

Our integrated approach combines global sourcing capabilities with local execution, delivering tailored solutions that meet project requirements, industry standards, and operational needs.

At Al Aitimad, we believe in building lasting partnerships through integrity, precision, and accountability. From sourcing materials and mobilizing skilled professionals to executing specialized industrial works, we are committed to delivering reliable solutions that create long-term value for our clients.

CHAIRMAN'S
MESSAGE

"Al Aitimad was founded on a simple conviction: that industrial clients in the Kingdom deserve a partner who can deliver global sourcing power with local accountability. Every material we procure, every square metre we coat, and every professional we deploy carries our name — and our name is our guarantee.

The Kingdom's Vision 2030 has opened an era of extraordinary industrial growth. Our role is to make that growth easier for our clients: one contract, one point of contact, one standard of quality across procurement, construction, protective works, and workforce solutions.

We measure our success not in contracts signed, but in clients who return. I invite you to experience the Al Aitimad standard."

Anwar Saleh M Al Mishdaq
Chairman — Al Aitimad

VISION, MISSION & VALUES

VISION

To be the region's most trusted single-source partner for procurement and industrial solutions, adding measurable value to our clients, our people, and the Kingdom's industrial economy.

MISSION

Sustainable growth through operational excellence, QHSE leadership, and integrated delivery — sourcing globally, executing locally, and completing every scope on time, on spec, and on budget.

CORE VALUES

INTEGRITY | **PRECISION** | **PARTNERSHIP** | **COMPLIANCE** | OWNERSHIP

al aitimad
CONTRACTING & TRADING

OUR
CORE SERVICES

Four pillars of industrial delivery — an integrated portfolio that takes clients from requirement to handover under a single point of accountability.

01

INTERNATIONAL PROCUREMENT SERVICES & SOLUTIONS

Seamless sourcing of industrial materials, equipment, and specialized goods from global markets. We manage the entire supply chain — from vendor qualification to last-mile delivery — ensuring quality, traceability, and cost efficiency.

- Global vendor network across 18+ sourcing countries
- Quality assurance, third-party inspection, and material certification
- Logistics, freight management, and customs clearance
- Strategic sourcing and cost-optimization consulting

02

INDUSTRIAL CONSTRUCTION SERVICES

Full-cycle industrial construction — from concept engineering and site preparation to structural build-out and handover — across oil & gas, power, and heavy industry sectors.

- Civil and structural engineering works
- Site preparation and earthworks
- MEP and process installations
- Project management and Q/QQC through completion

03

INDUSTRIAL MANPOWER SUPPORT SOLUTIONS

Skilled, vetted, and certified workforce supply for industrial operations — engineers, supervisors, technicians, and skilled trades on short- or long-term contracts, with full mobilization and compliance management.

- Skilled and semi-skilled trades across all disciplines
- Technical engineers and site supervision
- Rapid workforce mobilization and camp support
- HR, GOSI, Iqama, and regulatory compliance management

04

MACHINERY & EQUIPMENT RENTAL SERVICES

A modern fleet of heavy machinery and specialized industrial equipment available on flexible rental terms — maintained, certified, and delivered to site with operator support.

- Cranes and lifting equipment
- Earthmoving machinery
- Generators and temporary power plants
- Operator and preventive-maintenance support

al aitimad
CONTRACTING & TRADING

SPECIALIZED INDUSTRIAL SERVICES

Al Aitimad delivers a growing portfolio of specialized protective water and piping services engineered for the demands of oil & gas and heavy-industrial environments.

01

INDUSTRIAL COATING SERVICES – OIL & GAS

Surface preparation, abrasive blasting, and protective coating application for pipelines, tanks, structural steel, and process equipment — executed to client and international coating specifications with certified blasters, painters, and inspectors.

- Abrasive blasting and surface preparation to SSPC / ISO 8501 standards
- Internal and external pipeline coating
- Tank coating and lining: structural and protective painting
- Fireproofing and specialty coating systems

02

WATERPROOFING SERVICES

Complete waterproofing systems for industrial, commercial, and infrastructure assets — protecting concrete substructures, roofs, and containment areas against water ingress and chemical attack.

- Membrane, liquid-applied, andcrystalline waterproofing systems
- Below-grade, roofing, and wet-area applications
- Concrete repair and joint sealing

03

NON-METALLIC PIPING SOLUTIONS

Supply and installation of complete non-metallic piping systems — GRP/GRP, RTR, PVC, and CPVC — providing corrosion-free service life for water, firewater, chemical, and process networks.

- Material supply, jointing, lamination, and installation
- Certified joints and lamination crews
- Hydrotesting, inspection, and handover documentation

04

HDPE SERVICES

End-to-end high-density polyethylene piping services, including butt-fusion and electrofusion welding by certified technicians, for utility, firewater, dewatering, and process applications.

- HDPE pipe and fitting supply across all diameters and PN ratings
- Butt-fusion and electrofusion welding with calibrated equipment
- Trenching, laying, testing, and commissioning

05

CERTIFIED RESOURCES SUPPLY

Deployment of certified professionals and trademarks — coating inspectors, welders, joints, riggers, scaffolds, and HSE personnel — with verified credentials aligned to Saudi Aramco, SABIC, and international certification requirements.

- NACE / AMPP-certified coating inspectors and blasters
- Certified fusion welders and GRP laminators
- Aramco-approved riggers, scaffolds, and safety officers

SPECIALIZED
MAN POWER SUPPLIES

From short-term workforce requirements to long-term project assignments, our approach focuses on workforce availability, skill suitability, efficient mobilization, and compliance with applicable site and safety requirements. We work closely with clients to understand their manpower needs and coordinate workforce deployment to support smooth project execution.

OUR MANPOWER SUPPLY CAPABILITIES

1. Engineering & Technical Professionals
- Mechanical Engineers
- Civil Engineers
- Electrical Engineers
- Instrumentation Engineers
- Planning and Project Engineers
- QA/QC Engineers and Inspectors
- HSE Engineers and Officers
- Site Engineers and Technical Coordinators

2. Skilled Industrial Trades
- Welders and Pipe Fitters
- Fabricators and Machinists
- Millwrights and Mechanical Technicians
- Electrical Technicians
- Instrument Technicians
- Plumbers and HVAC Technicians
- Industrial Painters and Sandblasters
- GRP/GRP Piping Technicians and HDPE Fusion Welders

3. Construction & Infrastructure Workforce
- Civil Construction Workers
- Steel Fixers and Shuttering Carpenters
- Masons and Concrete Workers
- Scaffolding Erectors and Dismantlers
- Riggers and Signalmen
- Equipment Operators
- Earthmoving and Roadwork Crews
- General Construction Helpers

4. Oil & Gas and Petrochemical Personnel
- Pipeline Installation Crews
- Welding and Fabrication Teams
- Coating Inspectors and Application Crews
- Mechanical Maintenance Technicians
- Plant Maintenance Personnel
- Shutdown and Turnaround Support Teams
- Industrial Cleaning Personnel
- Fire Watch and Permit Support Personnel

5. Supervisory & Management Personnel
- Project Managers
- Construction Managers
- Site Supervisors and Foremen
- Mechanical and Electrical Supervisors
- QA/QC Supervisors
- HSE Supervisors
- Workforce Coordinators
- Logistics and Site Coordinators

6. General & Support Workforce
- General Helpers and Labourers
- Warehouse Assistants
- Material Handlers
- Storekeepers
- Drivers and Transport Support
- Housekeeping and Industrial Support Staff
- Availability of specific trades and personnel is subject to project requirements, qualifications, and mobilization arrangements.

Bulk Manpower Deployment
Support for projects requiring large teams across multiple trades and disciplines, coordinated according to workforce demand and project schedules.

Skilled & Certified Personnel
Sourcing of technical personnel and tradespeople with relevant qualifications, experience, and certifications required for their assigned roles.

Project-Based Workforce Planning
Workforce coordination aligned with project phases, construction milestones, maintenance activities, and operational demands.

Industrial Shutdown & Turnaround Support
Manpower planning for time-sensitive maintenance, inspection, repair, and turnaround activities, subject to availability and project scope.

MACHINERY & EQUIPMENT RENTAL SERVICES

OUR EQUIPMENT RANGE

- Lifting Equipment: Cranes and specialized lifting machinery.
- Earthmoving Machinery: Excavators, loaders, and earthmoving equipment.
- Power Equipment: Generators and temporary power solutions.
- Construction Equipment: Machinery for site preparation and construction activities.
- Material Handling Equipment: Equipment for industrial and site material movement.
- Supporting Services: Operator support, equipment delivery, and preventive maintenance, subject to rental arrangements.

OUR SERVICE ADVANTAGES

- **Flexible Rental Options:** Equipment arrangements tailored to project duration and operational requirements.
- **Site Delivery & Mobilization:** Coordinated equipment delivery to support project schedules and site readiness.
- **Operational Support:** Operator assistance and maintenance coordination, where included in the rental scope.
- **Safety & Reliability:** Attention to equipment condition, applicable safety requirements, and project specifications.
